## *bring in spring*

with revere's 2019 line

The revere vision of quality comfort footwear came to life on Australia's Gold Coast, with a dream to create a sandal that would provide support and stability while harnessing the carefree spirit of summer. Since 2012, the revere range has grown to include not only stylish sandals, but functional flats, weekend-ready lace-ups and so much more—all with revere's unparalleled dedication to craftsmanship and comfort.

This spring season, revere debuts a trend-forward line with new hues like metallic lilac and navy, textured leathers, and leopard-printed haircalf—all sure to become seasonal staples to complement any wardrobe. Metallic stud accents in brass and pewter tones add sophistication to sandal styles, while mini hot stones provide feminine sparkle to essential styles like Catalina. Delicately-crafted leather flowers add irresistible charm to our Lucca & Bari, which are sure to turn heads.

Inspired by fashion but created for comfort, revere offers style-conscious options while keeping fit at the forefront. Every revere silhouette is constructed with both comfort and quality in mind, using premium leathers from around the world. The lustrous materials found throughout the line are chosen with an eye toward long-term wear, conforming naturally to your feet for ultimate comfort.

# ensuring a fit

AS UNIQUE AS YOU ARE

Whether you're fitting narrow through to extra wide feet, our unique fitting options allow you to customize the fit of every revere sandal, shoe or bootie. Our fitting options include adding additional width, trimming straps to fit narrow feet, adding custom inserts as well as reducing volume in our footwear to accommodate a snugger fit.

Our goal is simple: offer beautifully designed sandals and shoes, with amazing comfort and fit.

ARCH CONTOUR

The revere foot-bed has been designed with a contoured arch support to cradle the feet, promoting stability and comfort to minimize tired and aching feet & legs.

STRAP EXTENDERS

Our unique Strap Extensions provide the option of adding an extra half an inch of width to any strap on our sandals and footwear. It's the perfect solution to take a medium width to a wide, or a wide width fitting to extra wide, eliminating the need to invest into multiple widths.

REMOVABLE COMFORT FOOTBED

Most revere styles feature a removable contoured footbed, allowing wearers of orthotics to insert them with ease.

FOAM FILLERS

Included with all of our footwear, our 3mm foam fillers can be inserted to fit under our inserts to accommodate a half size or simply offer a firmer/snugger fit.

STRAP TRIM MARKS

For those with narrow feet, many of our sandals now provide trim marks on the straps, to shorten and minimize any overhang of material to enhance the look and feel of our upper designs.

***"Our sandals and shoes fit more feet"***
