## revere fitting features

### REMOVABLE FOOTBEDS

Our sandals and shoes include Removable Footbeds that can be replaced with custom orthotics.

### FULL LENGTH FILLERS

If fitting needs to be further customized, included with every pair of our shoes is a set of Full-Length Fillers that can be modified to insert under the footbed or custom orthotics to provide a perfect fit.

### ARCH SUPPORT

The revere footbed is designed with a Contoured Arch Support to cradle the foot and promote stability and comfort to minimize tired and aching feet.

### TRIM MARKS

Fitting narrow feet? Many of our sandals include trim marks, stitched into our adjustable straps, so the length of any strap can be reduced if required.

### STRAP EXTENDERS

As no two feet are the same, our Comfort Fitting features provide exceptional adjustability with our innovative Strap Extenders. Customize the fit of your patients' sandals quickly and easily without taking away from our stylish upper designs. Our Strap Extenders are included with every pair of sandals and provide an additional 1/2 inch of adjustability.

### AVAILABILITY OF WIDE WIDTHS

Our sandals and shoes are available in both medium and wide widths.
